

## Grace showing very little respect for people

To the Editor:

Thanks D.C. Orr for your cheap, easy and sleazy attack against the public, especially the people of Libby.

I see you're a real champion of the corporate rule no matter how they poison the people. As for smoking, D.C. Orr would deny any joy for the people.

No, the people must slave at minimum wages for D.C. Orr and the corporate rule and be happy to get a crust of bread to eat so D.C. Orr can wring his profits from the workers.

Yes, we are all fools to put up with parasites like you, W.R. Grace, and the corporations.

The people and the workers

should rise up in mass protest and overthrow this capitalist government and bring forth a socialist state for all of the people.

Say, D.C. Orr, what about social responsibility to the people by parasites like W.R. Grace and you.

All power to the people.
